

Please do not change the current law. It has finally been quiet at home during the night. It is unreasonable that I'd have to wait 18 months for telemarketers to stop calling once I ask them to. If I make the decision that I want them to stop, they should stop. I don't need to be bullied into reconsidering my decision on a continual basis for 18 months. Changing this law would only be the government giving way to the bullies itself, and disregard for the desire of the voting and tax paying citizens of Wisconsin.
